

STUDENT SUPPORT

Find the services and the answers you need!

Same High Quality Support, New Delivery

Despite the distance, ECC is still offering services to help you reach your educational goals.

For instance, on our Virtual Advising and Registration page, you can find ways to get in touch with counselors and advisors to help you stay on track to graduate.

Our COVID response page will keep you up-to-date with the college's plans for re-opening and instructional delivery. There are also links there to help connect you with services for your mental and physical health while combating this pandemic.

For help in classes, you can sign in to Starfish and 'Raise Your Hand' to connect with tutors and other college offices. And if you have needs outside of class, Single Stop can connect you with resources in the community to help you meet them.

Staff in the Student Success Center are assisting students with registration, academic appeals, and more.

And don't forget, you can now text with ECC! Send questions for general information, Student Services, Financial Aid, or Admissions. Text (252) 618-6526 to receive a reply from an ECC representative. Message and data rates may apply.
